3/29/24 – Minutes from Addison Town Hall Committee

Present: John Spencer, Levi Barrett, Chris Stackhouse, and Michael Hollis

John opened the meeting at 10:00, and shared copies of the three latest floor plans, prepared by Laz Scangus for the 106 preliminary review meeting, to be held April 1st at 2:30 pm.

John questioned if the kitchenette in the Clerk's office was really needed. Chris remembered Cheri saying if only one clerk were present, they would need to maintain supervision of the space while eating a meal or break.

Levi was still uncomfortable with the old door and window locations being shaded differently, showing their former locations on the renovated floor plans. Laz had said he did not want to remove them. Chris assumed they might become useful in explaining why they don't still fit in the preferred designs.

The draft easement was discussed, noting it had a new listing of features with significance. Such as the chimney. Levi felt the list was different from what he'd seen in the Nat. Registry description. Levi felt the writer may have no knowledge of the renovation's goals and needs. John said he'd contact the writer to address our concerns.

The minutes from the 3/26/24 THBC meeting were approved 3 yes, 0 no, 2 absent.

John passed around a letter of support for the Earmark, written by Cheri Waterman. It was appreciated.

Next John raised the issue of revising /updating the names of Addison residents in support of the renovation, printed at the bottom of the old letter. Several names had either moved or changed their roles. He then assigned four names to all present, to call and confirm the support still exists for the revised letter.

Michael said he'd complete the application narrative, share it via email for the committee to approve or edit.

Levi suggested the letter would make more sense if written as "We", instead of "I", since there are 16 names at the bottom. It was greed.

The next meeting was scheduled for Monday, 4/1/24, at 10:00 am, as Monday is the deadline for Michael's online submission.

A motion to adjourn was approved at 10:39, 3 yes, 0 no, 2 absent.

Chris Stackhouse - clerk
